

PRODUCT DESIGNER

Dila Inan

d-luh e-nun

3 years of design experience in early-stage startups and SaaS health-tech products. I believe in the power of collaborative and data-driven design processes to solve the right problems with thoughtful products for people with business goals in mind.

SKILLS

Collaboration, User Research, Design Strategy, Wireframing, Prototyping

CAREER TRAITS

Empathetic - Seek to understand the feelings and perspectives of people

Authenticity - Speak openly for transparent and clear communication

Enthusiasm - Love what I do and excited to share it with others

OUTSIDE OF WORK

Being a dog mom, watching the latest documentary on Netflix, mentoring aspiring designers on ADP.

EXPERIENCE

PRODUCT DESIGNER

Omnicell | Oct 2022-Present | Full-time, Remote

Design various solutions for platform products used by medical professionals • Work with cross-functional product and engineering teams • Contribute the documentation of patterns/components for a comprehensive design system
